## COMTRAWINGFIVE INSTRUCTION 3710.10D

Subj: NAVAL AIRCREW TRAINING PROGRAM FOR THE TH-57B/C HELICOPTER

Ref: (a) BUPERSINST 1326.4E  
(b) OPNAVINST 3710.7U  
(c) NAVAIR 01-H57BC-1  
(d) CNATRAINST 3710.13G, CHAPTER 5  
(e) CNATRA Publication P-459 (REV 04-11)  
(f) NAVPERS 18068F, Volume II  
(g) COMTRAWINGFIVEINST 3510.2Q  
(h) COMNAVAIRFORINST 1500.12  
(i) COMTRAWINGFIVEINST 3710.8S

Encl: (1) Naval Aircrew Designation Letter  
(2) Aircrew Qualification Requirements  
(3) TH-57 Crew Chief Qualification Syllabus

1. Purpose. To provide requirements for designation and/or requalification for Helicopter Utility Aircrewman. This instruction incorporates references (a) through (i) and is issued for the purpose of standardizing the training conducted by HELTRARON EIGHT (HT-8), HELTRARON EIGHTEEN (HT-18), and HELTRARON TWENTY-EIGHT (HT-28) in qualification/re-qualification of aircrewmembers.

2. Cancellation. COMTRAWINGFIVEINST 3710.10C.

3. Discussion. The TH-57 and its multi-mission capabilities make HT-8/HT-18/HT-28 unique organizations. In addition to the primary mission of training fleet ready naval aviators, the squadrons may at any time be tasked to perform a wide variety of missions including search and rescue, logistic support, and personnel transfers. Aircrew personnel must be trained accordingly. Emphasis is placed upon safety in maintaining mission readiness. Standardization is stressed to ensure completion of external load, pinnacles, confined area landings, and instrument observer missions.

4. Definitions.

a. Naval Aircrewman. A naval aircrewman is defined as a member who meets the following criteria:

- (1) Serving in a specific flight billet under DIFCREW orders.
- (2) Has completed an appropriate course of instruction.
- (3) Designated in writing by BUPERS.

(4) Has an officially recorded crewmember code, NEC, or designator.

(5) Is authorized to wear the aircrew insignia.

b. Associate Aircrew. Associate Aircrew provide Training Air Wing FIVE (TW-5) with a pool of talent and instructional ability which can be drawn upon as required to compensate for fluctuations in permanent manning or student loading.

c. Crew Chief. Crew Chiefs are those personnel who meet the criteria of reference (a) in addition to having:

(1) Completed TH-57 Crew Chief Qualification Syllabus (enclosure (3)).

(2) Accumulated a minimum of 25 hours in the TH-57 helicopter, if Category I, and a minimum of 10 hours, for all other categories per reference (h).

(3) Completed all phase and mission requirements as set forth in NAVAIR 01-H57BC-1, chapters 2 and 5, and are currently qualified per reference (b).

(4) Been designated in writing by the Commanding Officer (enclosure (1)).

d. Qualified Observer. A person utilized to enhance lookout capabilities of the crew, particularly during pilot training evolutions when one of the pilots is wearing an instrument hood. The Observer works under the direction of the pilot in command and is an integral part of the TH-57 flight crew. The Observer is not necessarily an aircrewman. The Observer shall be familiar with ICS operations and shall be briefed on lookout doctrine and applicable emergency procedures. The Observer normally sits in the passenger compartment on the same side as the hooded pilot, but may occupy the right seat pilot station in certain cases.

e. Aircrew Trainee. An aircrew trainee is a qualified naval aircrewman or associate aircrewman who is transitioning to the TH-57 series aircraft.

## 5. Responsibility.

a. NATOPS Program Manager. The NATOPS Program Manager is designated in writing by the Commander, Training Air Wing FIVE. He is responsible to the Model Manager for specific duties in the maintenance of the assigned NATOPS publications, and acts as the Model Manager's single point of contact for all NATOPS related issues.

b. Squadron NATOPS Officer. The NATOPS Officer is designated in writing by the Commanding Officer. He is responsible for coordinating

the overall command NATOPS program as per reference (d). This responsibility shall include the recommendation for designation or re-qualification of aircrew members.

c. Enlisted NATOPS Evaluator. Per reference (b), the Enlisted NATOPS Evaluator is designated in writing by the Commander, Training Air Wing FIVE. The Enlisted NATOPS Evaluator is responsible for conducting annual NATOPS evaluations for the Enlisted NATOPS Instructors of all the same model squadrons or units within the same major command.

d. Squadron Enlisted NATOPS Instructor. The Enlisted NATOPS Instructor (NI) is designated in writing by the Commanding Officer. He is responsible to the NATOPS Officer for NATOPS program compliance. Additionally, he is responsible for ensuring all aircrew designations or re-qualifications are completed per this and higher directives.

e. Squadron Assistant Enlisted NATOPS Instructor. The Assistant Enlisted NATOPS Instructors (ANI) are designated in writing by the Commanding Officer. They are responsible to the Senior Enlisted NATOPS Instructor for training and evaluation of aircrew members in all aspects of the TH-57B/C Crewchief Qualification Syllabus. Enlisted NATOPS Instructors shall be qualified TH-57B/C Crew Chief and have successfully completed a qualifying open book exam, closed book exam, and a NATOPS flight evaluation given by the Enlisted NATOPS Evaluator.

f. Crewchiefs. Crewchiefs are responsible to the Enlisted NATOPS Instructor for training aircrew members in initial qualifications and are authorized to sign individual line items, excepting NI/ANI review items, in the TH-57 Crewchief Qualification Syllabus (enclosure (3)).

g. Enlisted Aircrewmembers. The Enlisted Aircrewmembers shall maintain a minimum of 48 flight hours per year as per references (a) and (b). They are responsible for ensuring all syllabus requirements are signed off after completion of each training event or flight. Enlisted Aircrewmembers will ensure their qualifications remain current per reference (b).

## 6. Requirements.

a. General Requirements. The following prerequisites must be met prior to individual's designation as a TH-57B/C Crew Chief.

(1) Possess the qualities of personal integrity, judgment, and initiative vital to the satisfactory performance of assigned tasks.

(2) Demonstrate thorough understanding of TH-57 B/C operation and performance. Reflected thorough knowledge of all governing publications and standardized performance in the aircraft.

b. Specific Requirement. Aircrew candidates must meet the following to become TH-57 aircrew qualified:

(1) Complete the TH-57 Crewchief Qualification Syllabus (enclosure (3)).

(2) Be current with respect to reference (b).

(3) Meet all requirements set forth in reference (c).

(4) Be familiar with pinnacles, confined area landings, external operations, and course rules per references (e) and (i).

c. Documentation. Completion of the above requirements will be documented in the TH-57 Crewchief Qualification Syllabus and maintained in the individual's NATOPS jacket. Upon completion of all training requirements the receipt of all applicable recommendations, the individual will be designated by the Commanding Officer as a TH-57B/C Crew Chief. Maximum time for qualification shall be six months after check-in.

d. Re-qualification Requirements. All aircrewman must re-qualify annually per reference (b).

#### 7. Action.

a. Squadron Operations Officer. The Squadron Operations Officer shall:

(1) Provide overall direction to the training program.

(2) Monitor the progress of aircrew trainees and ensure proper completion of the TH-57 Crewchief Qualification Syllabus (enclosure (3)).

(3) Ensure personnel undergoing training as an aircrewman have met all requirements prior to designation.

(4) Ensure qualified aircrewman have met the requirements of this instruction prior to re-qualification.

b. Squadron Administrative Officer. The Squadron Administrative Officer shall:

(1) Ensure all appropriate entries are forwarded to BUPERS and PSD for inclusion in the individual's Enlisted Service Record.

(2) Forward NEC change requests and designation requests (NAVPERS 1221/6) to Navy Personnel Command (PERS-413) for processing per reference (f).

(3) Ensure proper entries are made per BUPERS orders.

c. NATOPS Program Manager. The NATOPS Program Manager shall:

(1) Conduct an annual inspection of the Aircrew NATOPS Program to ensure compliance with appropriate directives.

(2) Ensure NATOPS evaluations are conducted for the Enlisted NATOPS Evaluator.

(3) Ensure NATOPS evaluations are conducted for Enlisted NATOPS Instructors.

(4) Provide guidance and assistance to all Squadron NATOPS Officers.

(5) Report directive conflicts to the activity responsible, including recommendations for resolving the conflict.

d. Squadron NATOPS Officer. The NATOPS Officer shall:

(1) Ensure the Aircrew Division NATOPS Petty Officer maintains a NATOPS Flight Personnel Training Jacket (OPNAV 3760/32) for each aircrewman.

(2) Forward all recommendations for designation, suspension, or change in status of aircrewmen to the Commanding Officer.

(3) Ensure standardization pilots are briefed on how to conduct aircrew check flights prior to scheduling the event.

e. Enlisted NATOPS Evaluator. The Enlisted NATOPS Evaluator shall:

(1) Monitor the Naval Aircrewman Training Program.

(2) Provide guidance and assistance to the Enlisted NATOPS Instructors.

(3) Ensure that all aircrew training is standardized.

(4) Maintain a standardized briefing guide for aircrew to use when briefing the Tactics syllabus flights.

(5) Conduct continuous review of existing publications.

(6) Conduct annual NATOPS evaluations for Enlisted NATOPS Instructors.

(7) Conduct random annual evaluations of one or more aircrewmen, to measure overall adherence to NATOPS procedures.

(8) Conduct annual NATOPS evaluations of all TH-57 squadron aircrew NATOPS programs.

(9) Report directive conflicts to the activity responsible via the NATOPS Program Manager, including recommendations for resolving the conflict.

(10) Make recommendations to the NATOPS Program Manager/Enlisted NATOPS Instructor regarding the need for review conferences.

f. Squadron Enlisted NATOPS Instructor. The Enlisted NATOPS Instructor shall:

(1) Ensure enlisted aircrewmen maintain currency per this instruction.

(2) Conduct check flights and evaluations as required.

(3) Comply with requirements delineated in reference (d).

(4) Ensure publications are maintained and correct.

(5) Ensure yearly flight time summaries are entered in the aircrewman's NATOPS jacket as per reference (b).

(6) Ensure all training syllabi and Aircrew Qualification Requirements (AQR) are entered into the miscellaneous section of the aircrewman's NATOPS jacket.

(7) Ensure billet descriptions for the aircrew training personnel are updated yearly and all requirements noted therein are fulfilled.

g. Squadron Assistant Enlisted NATOPS Instructor. The Assistant Enlisted NATOPS Instructor shall:

(1) Instruct designated phase of syllabus training, and conduct check flights as required.

(2) Assist the Enlisted NATOPS Instructor in completion of all duties as directed.

h. Crewchief. The Crewchief shall:

(1) Be responsible for training aircrewmen trainees/candidates.

(2) Certify completion of individual syllabus items contained in enclosures (2) and (3).

(3) Maintain currency per reference (b) under Duty Involving Flying Crewman (DIFCREW) orders.

(4) Provide assistance to Enlisted NATOPS Instructors as necessary to enhance the NATOPS Training Program.

i. Associate Aircrewmen. Associate Aircrewmen shall:

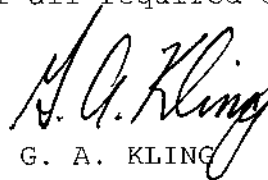

(1) Ensure availability for flights at least twice per month.

(2) Maintain currency per reference (b).

(3) Maintain close and continuous liaison with their assigned squadron to facilitate ease of scheduling.

(4) Attend, to the maximum extent possible, Safety Stand-downs, periodic standardization meetings, NATOPS training sessions and aircrew training lectures. Arrange to review copies of minutes of these meetings when unable to attend.

j. Aircrew Trainees. Aircrew trainees shall actively pursue qualification through completion of all required discussion items and syllabus flights.

G. A. KLING

## TH-57 CREW CHIEF QUALIFICATION SYLLABUS

NAME: \_\_\_\_\_ DATE: \_\_\_\_\_

## 1. Required Reading:

- a. NAVAIR 01-H57BC-1 NATOPS Flight Manual.
- b. NAVAIR 01-H57BC-1B Pilots Pocket Checklist.
- c. COMTRAWINGFIVEINST 3710.8S.
- d. Squadron Standard Operating Procedures (SOP).
- e. NAVAIR 00-80T-113, Aircraft Signals NATOPS Manual.

\_\_\_\_\_  
Crewchief Date

## 2. Discuss the safety precautions associated with the following:

- a. Flight line safety.
- b. Main rotor/tail rotor arc (entry/exit points).
- c. Fueling and de-fueling.
- d. Minimum night equipment.
- e. Aircraft tie-down security.

\_\_\_\_\_  
Crewchief Date

## 3. Aircrew Responsibilities:

- a. Preflight.
- b. Takeoff/Landings.
- c. ICS Operations/Failures.
- d. Hot seat and fueling procedures.
- e. Post Flight.

\_\_\_\_\_  
Crewchief Date

## 4. Perform egress from copilot seat.

\_\_\_\_\_  
NI/ANI Date

## 5. Perform egress from the cabin area.

\_\_\_\_\_  
NI/ANI Date

## 6. Discuss first aid kit location, inspection, and usage.

\_\_\_\_\_  
NI/ANI Date

7. Discuss portable fire extinguisher location, inspection, and usage.

\_\_\_\_\_  
NI/ANI Date

8. Discuss external safety precautions:

- a. External equipment.
- b. Swinging load.
- c. Aircraft emergency with load:
  - (1) Loss of tail rotor effectiveness.
  - (2) Complete loss of tail rotor thrust.
  - (3) Engine failure.
  - (4) Smoke/fire.
  - (5) Loss of electrical power.
  - (6) Flight control malfunction.

\_\_\_\_\_  
Crewchief Date

9. Discuss the method of load hook up.

\_\_\_\_\_  
Crewchief Date

10. Helicopter powered flight analysis:

- a. Power required vs. power available.
- b. Torque.
- c. Weather-vane effect.
- d. Center of gravity.
- e. Coning.
- f. Vortices.
- g. Ground effect.
- h. Vortex ring state both main and tail rotors.
- i. Translational lift.
- j. Dissymmetry of lift.
- k. Phase Lag.

\_\_\_\_\_  
Crewchief Date

11. Vibrations:

- a. Low frequency vibrations.
- b. Medium frequency vibrations.
- c. High frequency vibrations.

\_\_\_\_\_  
Crewchief Date

12. Aircraft Fundamentals:

- a. Maximum gross take-off weight.
- b. Maximum forward airspeed/with doors off.
- c. Maximum sideward airspeed.
- d. Maximum rearward airspeed.

\_\_\_\_\_  
Crewchief Date

## 13. Dimensions:

- a. Main rotor diameter.
- b. Tail rotor diameter.
- c. Overall length of aircraft.
- d. Maximum height of aircraft.

---

Crewchief

---

Date

## 14. Cargo Hook:

- a. Mounting points.
- b. Release mechanisms (X3).

---

Crewchief

---

Date

## 15. Seat Restraints/Doors:

- a. Seat belt operation.
- b. Inertia reel operation.
- c. Door operation.

---

Crewchief

---

Date

## 16. Instruments:

- a. Barometric altimeter.
- b. Airspeed indicator.
- c. Vertical Speed Indicator (VSI).
- d. Turn and Slip Indicator.
- e. Magnetic Compass (Standby).
- f. Horizontal Situation Indicator (HSI).
- g. Attitude Indicator.
- h. Radar altimeter.

---

Crewchief

---

Date

## 17. Engine Instrument and Indicators:

- a. Torque meter.
- b. Turbine Outlet Temperature indicator (TOT).
- c. Gas generator tachometer (Ng).
- d. Dual tachometer (Nf/Nr).
- e. Engine oil pressure and temperature gauge.
- f. Transmission oil pressure and temperature gauge.
- g. Fuel pressure indicator.
- h. Fuel quantity indicator.

---

Crewchief

---

Date

## 18. Caution Light Panel:

- a. Hydraulic Pressure.
- b. Duct Temp High.
- c. Engine fire.
- d. Generator fail.
- e. Fuel low.
- f. Turbine Outlet Temperature (TOT).
- g. Airframe fuel filter.
- h. Fuel pump.
- i. Torque.
- j. Tail rotor chip.
- k. Engine chip.
- l. Trans chip.
- m. Battery hot.
- n. Battery temperature.
- o. Transmission oil pressure.
- p. Engine out.
- q. Rotor low RPM.
- r. Clear chip.

\_\_\_\_\_  
Crewchief\_\_\_\_\_  
Date

## 19. TH-57 Communications and Audio Controls and Functions:

- a. On/Off switches 1,2,3,4 and 5.
- b. Transmit/Internal communications selector.
- c. Hot mike switch.
- d. Volume knob.

\_\_\_\_\_  
Crewchief\_\_\_\_\_  
Date

## 20. State the maximum flight time and minimum crew rest requirements.

\_\_\_\_\_  
Crewchief\_\_\_\_\_  
Date

## 21. Aircraft classifications:

- a. TH-57B.
- b. TH-57C.

\_\_\_\_\_  
Crewchief\_\_\_\_\_  
Date

## 22. Squadron call signs:

- a. HT-8.
- b. HT-18.
- c. HT-28.
- d. Helicopter Instructor Training Unit (HITU).

\_\_\_\_\_  
Crewchief\_\_\_\_\_  
Date

## 23. South Whiting Field:

## a. Flight line areas:

- (1) Alpha.
- (2) Bravo.
- (3) Charlie.
- (4) Delta.
- (5) Echo.
- (6) Foxtrot.
- (7) Golf.
- (8) Hotel.
- (9) OMD/Transient.
- (10) Hot Pits.
- (11) Hot Seat (Crew change area).

## b. Landing spots:

- (1) Spot 1.
- (2) Spot 2.
- (3) Spot 3.
- (4) Spot 4.
- (5) Spot 5.
- (6) Spot 6.

## c. Location of South Whiting Field Control Tower.

## d. Headings of South Whiting Field's runways.

## e. South Whiting Field traffic patterns:

- (1) Normal operating patterns.
- (2) Maintenance operating patterns.
- (3) Departure routes.

---

Crewchief

---

Date

## 24. Outlying Fields (OLF):

## a. Site 8:

- (1) Course rules to/from Site 8.
- (2) Altitude/Airspeed for pattern entry.
- (3) Tower and wind sock location.
- (4) Maximum number of aircraft allowed to operate.
- (5) Headings for Confined Area Landings (CAL) operations.
- (6) Crash crew reposition requirement for CAL operations.
- (7) Departure procedures/Field boundaries.
- (8) Hot pits.

---

Crewchief

---

Date

## b. Harold:

- (1) Course rules to/from Harold.
- (2) Altitude/Airspeed for pattern entry.
- (3) Tower and wind sock location.
- (4) Maximum number of aircraft allowed to operate.
- (5) Headings for Confined Area Landings (CAL) operations.
- (6) Headings for pinnacle operations.
- (7) Crash crew reposition requirement for CAL operations.
- (8) Departure procedures/Field boundaries.

---

Crewchief \_\_\_\_\_ Date \_\_\_\_\_

## 25. Definition of Landing Terms:

- a. Land as soon as practical.
- b. Land as soon as possible.
- c. Land immediately.
- d. Precautionary Emergency Landing.

---

Crewchief \_\_\_\_\_ Date \_\_\_\_\_

## 26. Ground Emergencies:

- a. Emergency Shutdown.
- b. Abort Start.
- c. Igniter Failure.
- d. Hot Start.
- e. Engine fire.

---

Crewchief \_\_\_\_\_ Date \_\_\_\_\_

## 27. In-flight Emergencies:

- a. Engine failure.
- b. Engine fire.
- c. Fuselage fire.
- d. Electrical fire.
- e. Smoke and fume elimination.
- f. Electrical failure.
- g. Hydraulic failure.
- h. Jammed flight controls and other flight control malfunctions.
- i. Tail rotor malfunctions.
- j. Inadvertent entry into Instrument Meteorological Conditions (IIMC).
- k. ICS/radio selector panel failure.
- l. Over-torque, over-speed, over-temperature.
- m. Fuel boost pump failure.
- n. Inadvertent seat belt release.
- o. Stuck external load procedures.

---

Crewchief \_\_\_\_\_ Date \_\_\_\_\_

28. Emergency landings:

- a. Autorotation.
- b. Landing in the trees.
- c. Crash position.
- d. Power on ditch.
- e. Power off ditch.
